

Nooksack Behavioral Health

Front Office Phone Number 360.966.2376

Hello everyone, my name is Dr. Khan; I am a licensed Clinical Psychologist from Nooksack Behavioral Health. I want to let all Tribal members know that NIT Behavioral Health is open virtually to support you in this time of High Anxiety. We will continue to accept new clients; the only difference would be that you will be seen virtually or through a phone session.

Having said that let me explain how it would work: Nooksack Tribal members can call our front office to make a virtual appointment. Those of you who have internet access will be contacted on the scheduled time through your email or phone number for a virtual counseling session.

Those of you who do not have access to internet or data our Behavioral Health front office staff will call you to connect you with your Counselor for phone session visit.

NIT BH Counselors will regularly reach out to our members who already established clients to enquire about their health and wellbeing.
