# Nooksack Phased Approach to Moderna Vaccine Allocation

## VACCINE PHASE 1
- Direct and indirect health workers
- First responders
- Tribal Police

## PHASE 1B
- Elders ≥ 60 years of age
- Elders 55+ (including elder spouses) living in congregate or overcrowded settings
- People 18+ with comorbid and underlying conditions that put them at significantly higher risk (2 or more comorbidities)
- People with disabilities, including serious mental illness, developmental and intellectual disabilities, and physical disabilities, not already covered in Phase 1

## VACCINE PHASE 2
- All elders 55+ not covered in Phase 1
- Critical workers in high-risk settings -- workers who are essential to the functioning of the Tribe and at substantially higher risk of exposure (ex. Nooksack Youth Program, Nooksack Head Start, Nooksack enterprises)
- People of all ages with comorbid and underlying conditions that put them at moderately higher risk (1 comorbidity or condition)

## VACCINE PHASE 3
- Young adults 18+
- Workers important to the functioning of the Tribe and at increased risk of exposure not included in Phase 1 or 2 (ex. Housing, Food Bank, Social Services)

## VACCINE PHASE 4
- Everyone in the Nooksack Tribe not previously immunized
- Members of other federally recognized tribes not Nooksack
- Those with close social and economic ties to Nooksack Tribal members that impact their health and wellbeing

*At this time, children 17 years and younger are not approved to receive Moderna COVID vaccinations.*

Note: This is a living document subject to change. Vaccine allocation is based on the number of vaccines the Tribe receives from Indian Health Services.
