Council Position "B"

To the Nooksack Tribal enrollment:

I am running for Nooksack Council Position "B."

I am a team player who wants to improve our community. A person that is given directions and has a timely follow-through. I would like to see more input regarding community information about where the Nooksack community is heading. We need more open lines of communication for the enrollment to be heard.

My parents are **Lex' e ym**, Darrell Cline and the late **Kwa'i si ot**, Carole J Thomas.

Both of my parents have given me life skills and daily functioning skills, and I can't say that I learned everything. I learn everyday how to improve my work. Furthermore, we attended classes to improve our native ways over at the Coqualeetsa Cultural Centre back in the early 80s. Then out at the Lummi Gym, mid/late 80s-- basketry and weaving from the late Chief Bill James and late Fran James.

Most of my knowledge is shareable. I want to share with anyone that would like to learn.

I want to ensure sound decisions are made for the future generations. Make that they are getting better education for the better paying jobs off reservation. I will listen to concerns and give all possible outcome decisions.

Currently, I am employed as Nooksack Enrollment File Clerk. Previous employment at the Nooksack Social Services, my final position was Nooksack Elders Travel and Events Coordinator. So, customer service has always been part of my approach to everything. Listening. Then finding the solution. Or giving the appropriate response to the situation. If the answer is out of my bounds, I will inform them of the right person to talk with.

With the knowledge, patience, and understanding, I want to be a positive voice for the Nooksack membership.

Thank-you in advance for reading this:
